COMPANY DESCRIPTION

OppFi, Inc. is a tech-enabled, mission-driven specialty finance platform that broadens the reach of community banks to extend credit access to everyday Americans. Through its unwavering commitment to customer service, the Company supports consumers, who are turned away by mainstream options, to build better financial health. OppFi began trading on the NYSE under the symbol "OPFI" on July 20, 2021, following the completion of a Business Combination Agreement by and among FG New America Acquisition Corp.

OPFI, INC. (NYSE: OPFI)
OppFi Reports Historic 3Q24 Results

Financial Results: OPFI reported revenue, adj. Net Income, and adj. EPS of \$136.6M, \$31.5M, and \$0.36, respectively. This compares to our/consensus estimates of \$130.1M/\$130.8M, \$17.9M/\$17.2M, and \$0.21/\$0.20. Net revenue margin was 66.7% for the quarter, which was a year over year margin expansion of 992 bps from 3Q23. The impressive performance this quarter is attributed to a notable increase in both total revenue and net income, setting new records for the Company. We expect this positive trajectory to persist throughout the remainder of 2024, as OppFi continues to prioritize strategic initiatives aimed at enhancing profitability and driving sustainable growth.

Liquidity and Balance Sheet: OPFI concluded the third quarter with \$74.2M in cash and restricted cash, a slight increase of \$0.3M from the end of 2023. The Company also had \$199.4M in unused debt capacity, which, combined with \$44.8M of unrestricted cash, totaled \$273.6M in liquidity. This strong liquidity position provides significant flexibility, enabling The Company to potentially return value to shareholders through dividends, share repurchases, and funding for both external and organic growth initiatives. Notably, OPFI repurchased \$1.0M worth of Class A common stock during the third quarter.

Originations: Total net originations for the third quarter were \$218.8M, an increase from \$205.5M in the previous quarter and \$195.7M in the same quarter last year. Originations typically follow seasonal trends, and we anticipate continued year-over-year improvement. In this quarter, 100% of originations were facilitated by bank partners. The auto-approval rate rose to 77%, up from 76% last quarter and 72% in the same quarter last year. This resulted in ending receivables of \$413.7M. We note that OPFI has successfully increased originations without raising acquisition costs.

Lending Standards: Charge-offs as a percentage of total revenue decreased to 34.3% by the end of the third quarter, down from 42% in the same quarter last year. This demonstrates the company's capability to increase revenues while effectively managing credit quality. We anticipate that OPFI will continue to target the lowest risk segments, especially as upmarket banks tighten their credit standards. Additionally, we remain vigilant about the potential impacts of inflation, federal interest rates, and unemployment on OPFI's customer base.

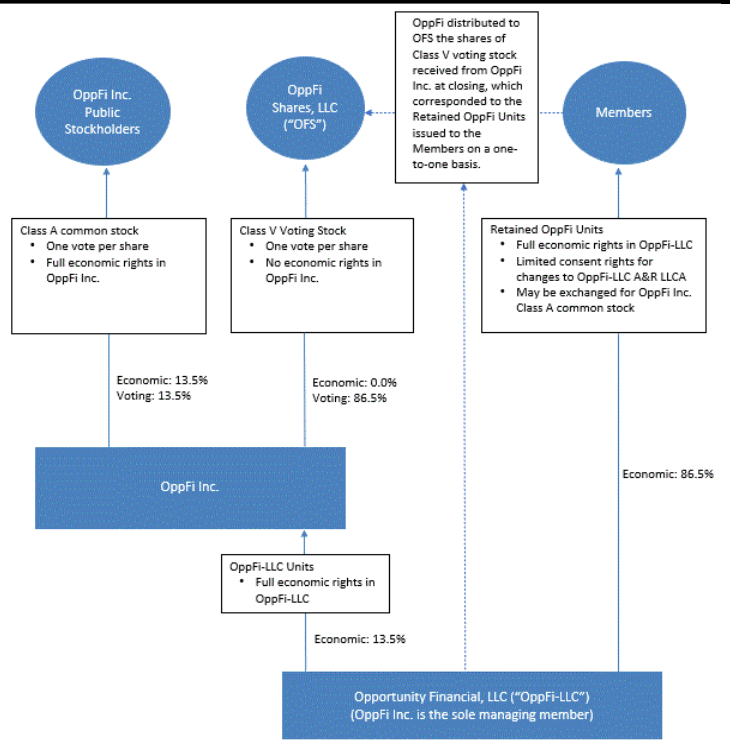

Guidance: In 3Q24, OPFI reiterated its full-year revenue guidance and raised both the adjusted net income and adjusted EPS guidance for FY24. Revenue guidance is maintained at a range of \$510M to \$530M. Adjusted net income guidance was raised to a range of \$74M to \$76M, up from the previous range of \$63M to \$65M. Adjusted EPS guidance was increased to a range of \$0.85 to \$0.87, from the previous range of \$0.73 to \$0.75. We believe the company is well-positioned to meet and exceed its guidance. We have adjusted our model accordingly.

Valuation: We use a P/E comp analysis to guide our valuation. Our valuation relies on a P/E multiple range of 7.0x to 8.0x with a midpoint of 7.5x. This arrives at a valuation range of \$6.49 to \$7.41 with a mid-point of \$6.95.

Business Overview

OppFi, Inc. (“OppFi”, “OPFI” or “the Company”) is a tech-enabled, mission-driven specialty finance platform that broadens the reach of community banks to extend credit access to everyday Americans. Through its unwavering commitment to customer service, the Company supports consumers, who are turned away by mainstream options, to build better financial health. OppFi began trading on the NYSE under the symbol “OPFI” on July 20, 2021, following the completion of a Business Combination Agreement by and among FG New America Acquisition Corp. OppFi is currently organized in an “Up-

Exhibit 1: OppFi Ownership Overview

Source: Company Reports

C” structure where voting interest is split between Class A common shares and Class V common shares and where economic interest is split between Class A common shares and Members retaining OppFi units.

This unique ownership structure leads to management and shareholders having their interests aligned. OppFi units are primarily held by Founder and CEO Todd Schwartz and his family, with the remaining held by current and former employees. These units can be exchanged for Class A shares. We note that Mr. Schwartz, who founded the company in 2012, is the largest shareholder and also made open market purchases of Class A shares in both FY22 and FY23. This alignment helps keep the mission driven nature of OppFi at the forefront while also maintaining the economic interests of Class A shareholders.

OppLoans

OppLoans is currently the only product offered by OppFi. Banks work with OppFi to provide short-term lending options. These credit solutions are for an average of approximately \$1,500 repaid in installments over an average term of 11 months. The typical customer is a U.S. consumer who is employed at a median wage, has a bank account, is rejected for a loan when applying at a bank due to a low credit score, and uses the proceeds for unexpected expenses such as:

- Auto Repairs
- Housing Expenses
- Medical Expenses
- Education Opportunities

OppFi facilitates these solutions that have market leading terms that include simple terms with no origination fees, late fees, or repayment penalties. Additionally, the Company reports to the 3 major credit bureaus. This works in concert with OppFi’s TurnUp Program which helps eligible applicants find more affordable borrowing options below 36% APR. OppFi does all of this while maintaining

impressive customer experience ratings which include a 4.5 out of 5 on TrustPilot as of publication, an A+ rating from the BBB as of publication, and a Net Promoter Score of 78 as of 3Q24.

This has resulted in significant company highlights illustrated below:

Exhibit 2: Company Highlights

1. 2015-2023
2. 2018-2023

3. As of 11/07/2024

Source: Company Reports

To fund its operations OppFi maintains a revolving debt balance that totaled \$275.6M as of 3Q24. This was equal to approximately 85% of the Company's 3Q24 debt level and 52% of current market cap. While we typically avoid companies that have such high debt levels relative to market cap, we view this as a unique situation due to OppFi maintaining this revolver to fund its receivables and is thus correlated to its receivables. The remaining \$49.9M we view as corporate debt which makes up a much more reasonable 15% of 3Q24 debt level and 9% of current market cap.

Digital Specialty Finance Platform

Crucial to OppFi's success is the platform that it operates. This starts with the Company's ability to facilitate credit solutions, with net originations growing 11.8% year over year in 3Q24. We attribute this to OppFi's wide network of marketing and sourcing that includes its partner channel, SEO, email marketing, direct mail, and its referral network.

Through the bank partner model, banks utilize the platform to lend, originate, contract, and fund the borrowers. OppFi's current bank partners are FinWise, First Electric Bank, and Capital Community Bank. The banks not only originate the loans but they also retain the title to and ownership of the loans at all times, however, OppFi may purchase certain participation interests in the loans at a later date while the banks retain the titles as the owners of the assets.

To facilitate credit decisions the platform relies on over 500 data points outside of traditional FICO scores to generate a proprietary score. Applicants are evaluated based on metrics such as consistency of income, types of previous loans, previous repayment patterns and employment status, among many others. OppFi believes these nontraditional methods more accurately identify those consumers who are willing and able to repay loans, while simultaneously helping bank partners to avoid the issuance of loans to those consumers who cannot afford or do not intend to repay. Approximately 89% of underwriting decisions were automated in FY23 with some applicants receiving their funds on the same day the applications are approved.

As applicants go through the underwriting process, those that are eligible may choose to opt into the OppFi TurnUp Program which voluntarily checks the market for sub-36% APY products for which the applicant may qualify. Should the applicant qualify for these lower cost products they are made aware of this avenue and are given the option to either continue their application on the other lender’s platform or to continue using the OppFi platform.

Exhibit 3: Digital Native Solution

Source: Company Websites

Value to Customers

- » Quick application process
- » If approved, access to fair and transparent credit
- » Opportunity to build financial health

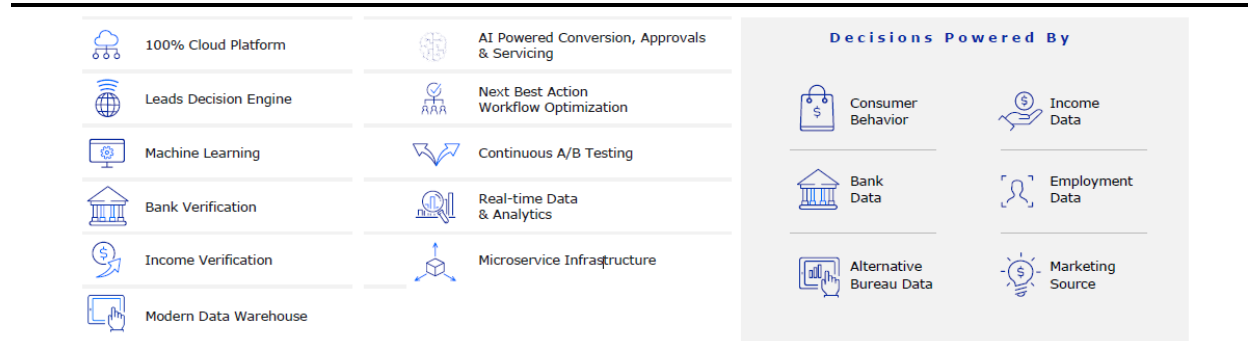

Value to Bank Partners

- » Best-in-class mobile acquisition
- » Customizable underwriting platform with alternative data resources
- » Industry-leading customer service

This ability to successfully underwrite allows OppFi to provide very competitive terms and conditions in fair and transparent packages that allows customers to build financial health. Simple interest installment loans without balloon payments make the process as straightforward as possible. These terms coupled with reporting to the three major credit agencies provide customers with an ability to rebuild credit.

This is emblematic of the Company’s mission driven ethos and one of the drivers leading to OppFi having such strong customer satisfaction scores. Lastly, customers and non-customers alike have access to OppU which is the Company’s online financial education center which can help educate users about credit building and budgeting. This is with the explicit goal of helping customers to graduate to mainstream credit products.

Exhibit 4: Platform Drivers

Source: Company Reports

Small Business Advances

On August 1, 2024, the Company announced a strategic acquisition of a 35% equity interest in Bitty Advance (“Bitty”) for \$17.9M, which is a 6.0x valuation based on Bitty’s \$8.5M TTM adj. net income as of 1Q24. This transaction was financed with 85% cash and 15% stock, aligning Bitty’s management with OppFi goals. Bitty is a profitable and growing platform that provides credit access to underserved small businesses, many of which have difficulty accessing traditional bank loans. This transaction includes options for OppFi to obtain majority and total ownership over time. We view this transaction as strategically beneficial as it opens the small business financing vertical for OPFI.

Growth Strategy

To increase market share and grow the business, management developed key organic and inorganic growth initiatives. The initiatives include driving volume growth, diversifying into new customer and product types, and serving more customers through new relationships. An overview of these priorities can be found in the following exhibit.

Exhibit 5: Growth Drivers

Source: Company Presentation

Market Overview

Demand for OppFi products is directly related to the U.S. consumer. Current estimates show that 63 million U.S. consumers are credit marginalized. Additionally, 62% of consumers are living paycheck to paycheck. This coupled with 56% of adults not having the savings to cover unplanned expenses over \$1,000 leaves OppFi products in demand.

These customers tend to be some of the most in need of fair, affordable, transparent, and flexible credit products to cover cash shortfalls. This segment of the market is not serviced by traditional banks and credit providers, primarily due to low FICO scores. OppFi can service this market due to their strong underwriting results discussed above.

Source: Company Presentation

When we look at this market going forward, we note that traditional banks have been slow to adopt digital technologies. Of the roughly 4,700 FDIC institutions, the majority operate with legacy technology that is not sufficiently mobile for today's consumer. This gives OppFi a significant early adopter advantage to gather data and continue to improve its mobile and digital platform.

Risks

As with any investment, there are certain risks associated with OppFi's operations as well as with the surrounding economic and regulatory environments common to the specialty finance industry.

Competitive Industry – OPFI operates in a competitive industry with a number of players, some of which are larger than the Company. Should the Company fail to expand its customer base the business may suffer.

Regulatory Changes – The Company may be subject to regulatory changes. Government legislation and/or regulatory agencies can impose rate caps, which can negatively impact the Company's ability to operate.

Credit – OPFI's customers are those with low and/or poor to no credit history. This puts the Company at significant risk of loss should a significant number of customers fail to meet their contracted repayment obligations.

Reinvestment – OPFI has a very short duration portfolio requiring repeated reinvestment. Should appetite for OPFI's products deteriorate it will be challenged to recover that revenue lost.

Partnerships – The Company depends on FinWise, FEB, and CCB to support its operations as bank partners. Should any of these partners choose to cease or limit operations the Company may be unable to attract new bank partners, which would have a significant adverse impact on OppFi's operations.

Significant Ownership Concentration – Greater than 50% of both voting and economic interest is held by insiders. While we generally like to see companies with significant insider ownership, concentrated ownership allows management to exert significant control over operations. Should their interests diverge from minority owners, minority shareholders may be negatively affected.

VALUATION SUMMARY

To help frame our valuation we use a comparative analysis.

Due to OppFi's role in the lending process we do not believe it is appropriate to value OppFi using Book Value as we would a traditional bank or lending operation. We therefore rely more heavily on P/E when valuing OppFi.

We are using a P/E framework to inform our OPFI valuation. Currently OPFI is trading at a FY25 P/E of 6.6x compared to comps at an average of 8.7x. We note that historically comps have traded in a range of 5.6x to 9.5x per CapIQ. We are using our F25 expected Earnings of \$0.93, and a P/E range of 7.0x to 8.0x with a midpoint of 7.5x. We believe this is reasonable given the historical trading multiples of peer companies. This arrives at a valuation range of \$6.49 to \$7.41 with a mid-point of \$6.95.

IMPORTANT DISCLOSURES AND DISCLAIMER

- (a) The research analyst and/or a member of the analyst's household do not have a financial interest in the debt or equity securities of the subject company.
- (b) The research analyst responsible for the preparation of this report has not received compensation that is based upon Stonegate's investment banking revenues.
- (c) Stonegate or any affiliate have not managed or co-managed a public offering of securities for the subject company in the last twelve months, received investment banking compensation from the subject company in the last 12 months, nor expects or receive or intends or seek compensation for investment banking services from the subject company in the next three months.
- (d) Stonegate's equity affiliate, Stonegate Capital Partners, "SCP" has a contractual agreement with the subject company to provide research services, investor relations support, and investor outreach. SCP receives a monthly retainer for these non-investment banking services.
- (e) Stonegate or its affiliates do not beneficially own 1% or more of any class of common equity securities of the subject company.
- (f) Stonegate does not make a market in the subject company.
- (g) The research analyst has not received any compensation from the subject company in the previous 12 months.
- (h) Stonegate, the research analyst, or associated person of Stonegate with the ability to influence the content of the research report does not know or have reason to know of any material conflicts of interest at the time of publication or distribution of the research report.
- (i) No employee of Stonegate has a position as an officer or director of the subject company.

Ratings - Stonegate does not provide ratings for the covered companies.

Distribution of Ratings - Stonegate does not provide ratings for covered companies.

Price Chart - Stonegate does not have, nor has previously had, a rating for its covered companies.

Price Targets - Stonegate does not provide price targets for its covered companies. However, Stonegate does provide valuation analysis.

Regulation Analyst Certification:

I, Dave Storms, CFA, hereby certify that all views expressed in this report accurately reflect my personal views about the subject company or companies and its or their securities. I also certify that no part of my compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed in this report.
