**COMPANY DESCRIPTION**

Gladstone Commercial Corp is a real-estate investment trust (REIT) that primarily focuses on acquiring, owning, and managing single tenant and anchored multi-tenant net-leased office and industrial properties. The Company also has the capacity to make long-term industrial and commercial mortgage loans to companies of various industries across the United States. Gladstone's investment portfolio consists of real-estate properties that are leased to tenants with small- to medium-sized unrated businesses and larger rated businesses, occupied by companies controlled by buyout funds, and are purchased from and leased back to businesses that are seeking to raise capital. GOOD IPO'd on the NASDAQ in 2003 under the trading symbol GOOD and is currently headquartered in McLean, Virginia.

**GLADSTONE COMMERCIAL CORP (NASDAQGS: GOOD)**
**Company Updates**

**Transactions:** GOOD has remained acquisitive, prioritizing mission critical properties in growth markets at attractive cap rates. The Company reduced its property portfolio by one location and one tenant on net to 136 properties and 110 tenants. This is in-line with managements stated objective to reduce holdings in non-core locations with three exits in the year to date. Additionally, on October 13, 2023 GOOD made its most recent purchase of a 70,000 sqft. industrial triple net property in Allentown, PA for \$7.8M at a cap rate of 9.2%.

**Decreasing Debt Levels:** The Company ended the quarter with a total debt level of \$759.0M with an average interest rate of 5.48%. This translates to a Net Debt/Gross Assets percentage of 45.4%. This is in-line with the 2022 ratio of 45.3%. As the Company continues to recycle assets, we expect debt levels to continue to decrease. We note that the Company repaid \$2.7M in fixed rate debt during 2Q23. Subsequent to the end of the quarter the Company repaid an additional \$35.7M of fixed rate debt.

**Fundamentals Remain Strong:** GOOD fundamentals remain very strong. Occupancy at the end of the quarter was 96% with 100% rent collection throughout the quarter. Lease terms remain strong at 6.8 years, down from 7.1 years in 2Q22. Subsequent to the end of the quarter GOOD collected 100% of rents in July.

**2Q23 Results:** GOOD reported revenue, EPS, and adj FFO per share of \$38.7M, (\$0.19), and \$0.24, respectively. This compares to consensus estimates of \$37.0M, (\$1.17), and \$0.33. Net Income to common stockholders was a loss of \$7.7M, largely due to impairment charges taken on three properties during the quarter. Core FFO for the quarter was \$0.41 per share, an increase of 10.7% from the prior quarter.

**Improving Diversification:** GOOD continues to pivot from office properties into industrial. In 2Q23 the Company's portfolio consisted of 59% industrial properties and 37% office properties. This was up from 52% industrial and 44% office in 2Q22. This pivot is even more pronounced since 2019 when the Company ended the year with 38% industrial and 57% office.

**Payout Ratios:** The Company currently pays a 9.9% dividend yield, paying out an annualized \$1.20 per share. This is down from the \$1.50 per share paid out in FY22. As is noted in the valuation segment, despite the decreased dividend the company still appears undervalued. Based on a 2Q23 per share values for FFO of \$0.41, Core FFO of \$0.41, and AFFO of \$0.24 GOOD has payout ratios of 74%, 74% and 126% respectively.

**Valuation:** We use a combination of comp analysis, reNAV per share analysis, and a Perpetual Growth Model to frame our valuation of GOOD. When we average these valuation methods it returns a valuation range of \$13.17 to \$16.25 with a midpoint of \$14.68.

## Business Overview

Gladstone Commercial Corp (“Good” or “The Company”) is a real-estate investment trust (REIT) that primarily focuses on acquiring, owning, and managing single tenant and anchored multi-tenant net-leased office and industrial properties. The Company also has the capacity to make long-term industrial and commercial mortgage loans to companies of various industries across the United States. Gladstone’s investment portfolio consists of real-estate properties that are leased to tenants with small- to medium-sized unrated businesses and larger rated businesses, occupied by companies controlled by buyout funds, and are purchased from and leased back to businesses that are seeking to raise capital. As of June 30, 2023, Gladstone owns 136 properties totaling 17.2 million square feet. GOOD IPO’d on the NASDAQ in 2003 under the trading symbol GOOD and is currently headquartered in McLean, Virginia.

Acquisitions are a key component of Gladstone’s business. Management is highly selective in its acquisitions, focusing on candidates with accretive returns that are in targeted growth markets and are accretive to the portfolio. As of 2Q23, GOOD’s total gross assets are \$1.658 billion, increasing approximately 67% over 2015. In 2018, Gladstone began shifting its focus to acquiring industrial assets in attractive growth markets with long-term net leases to credit tenants. As of 2Q23, 59% of the portfolio’s industrial exposure is comprised of annualized straight-line rent. To continue this momentum, management has reduced dividends to free up capital to further shift the portfolio to industrial assets to benefit from increased yields resulting from record lows.

## Exhibit 2: Industrial Asset Growth

Source: Company Presentation

Gladstone is led by an extensively experienced management team with a combined industry experience of over 130 years. Management's background involves buying, leasing, and owning office and industrial real estate, as well as a vast knowledge of lending and investing in middle market and larger operating companies. At the helm is founder and CEO David Gladstone who has extensive experience including commercial lending, investing, and buyout scenarios, and Buzz Cooper who has been with the Company for over 20 years and whose experience includes asset and property acquisitions, buying loans from RTC and making real estate backed loans.

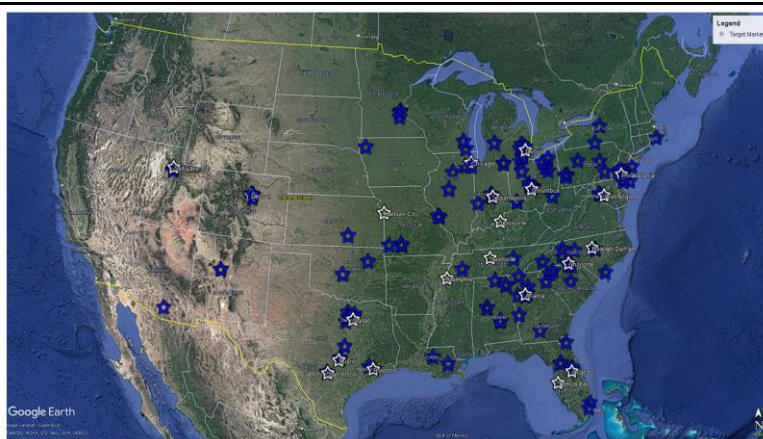

## Market Strategy

Gladstone has a market strategy driven by a highly diversified portfolio, stable income streams, selective underwriting, predictable cash flows from quality assets, and matching long-term leases with long-term fixed rate debt. These elements are crucial to GOOD's investment philosophy and have allowed the Company to maintain a stable portfolio and strong balance sheet, which positions GOOD to continue making strategic acquisitions.

### Highly Diversified Portfolio:

Gladstone prioritizes tenants that are diversified by geography, industry, property type, and by size, ranging from small private companies to large publicly traded corporations. These larger public tenants include General Motors (NYSE: GM), Automatic Data Processing, Inc. (NasdaqGS: ADP), and T-Mobile US, Inc. (NasdaqGS: TMUS). Midsize tenants occupying properties ranging from 30-150K SF (office) and 75-500K SF (industrial) are the portfolio's primary focus. GOOD's tenants represent 19 different industries such as automotive, telecommunications, and building and real estate, which make up 15%, 11%, and 9% of the portfolio, respectively. Moreover, the group is geographically diverse, spreading across 27 U.S. states shown in exhibit 3. This diversity has aided GOOD to maintain stability and mitigate risks.

### Exhibit 3: Gladstone's Properties

Source: Company Presentation

### Stable Income Streams:

The Company targets growth markets across the U.S. to accumulate assets in specific markets to create valuable portfolios. This strategy emphasizes submarkets with strong economic components, including population growth, a diverse industry base, constrained supply, and high barriers to entry. These promising growth markets present GOOD with a stable income stream that strengthens the portfolio.

### Selective Underwriting:

Gladstone analyzes potential acquisitions by considering potential tenant strength based off financial statements, capital structures, credit ratings, management experience, industry fundamentals, and their ability to withstand downturns, as well as assessing markets poised for growth, asset quality, and focused transactions. This is a proven strategy that has led to consistently strong growth. As a result, GOOD's occupancy is now at 96% and has never fallen below 95% since IPO in 2003. As of 2Q23, the Company's GAAP cap rate on its YTD acquisitions is 9.56% and its current acquisition pipeline shows above 8.5%.

### Predictable Cash from Quality Assets:

The portfolio contains quality assets with flexible configurations that are critical to their tenants' operations. Gladstone targets net leases with 7+ years remaining once acquired. These properties include single tenant and anchored multi-tenant office and industrial properties. Industrial properties have progressively become the management's priority and now make up 59% of the portfolio.

Historically, GOOD acquires triple net (NNN) leases, which requires tenants to pay rent, plus all of the taxes, property insurance and maintenance/repair costs. The advantages of triple net leases include consistent cash flows with predictable returns and higher yields than comparable assets.

### Matching Long-term Leases with Long-term Fixed Rate Debt:

Gladstone mitigates the risk against the possibility of both another recession and increasing interest rates by matching long-term leases with long-term fixed debt. From this, management has focused on deleveraging and refinancing debt at lower rates. Net debt as a percentage of gross assets is currently 45.4% as of 2Q23, decreasing 17.8% since 2012. There are significant opportunities to create savings through refinancing of debt. The proceeds from refinancing debt help fuel GOOD's acquisition pipeline.

### Exhibit 4: Deleveraging

Source: Company Presentation

## Industry Overview

U.S. equity REITs experienced reduction in funds from operations (FFO) as a result of the Covid-19 pandemic. However, REITs quickly rebounded and even surpassed pre-pandemic levels. This plays into the fact that REITs historically outperform private real estate and the overall market during and after recessions, shown in exhibit 5. Companies across all industries have instituted return-to-work policies after a movement to work from home in 2020, which will increase broad occupancy rates going forward and thus lead to stronger leasing and operational performance for REITs going forward.

### Exhibit 5: Equity REIT Funds From Operations (FFO) Growth

Source: NAREIT T-tracker

As of 2Q23, occupancy rates in the industrial sector are the highest amongst all industries at over 96%. In fact, demand for industrial properties has outpaced all other industries for the last 8 quarters, shown in exhibit 6. Despite a plateau in starts and sales due to higher rates and economic uncertainty, industrial occupancy has persisted, and long-term demand remains positive. Comparatively, office space development has declined and there is a record high of office properties being demolished, redeveloped, or converted. The pivot to industrials properties bodes well for GOOD going forward as the Company continues to transition their portfolio to a higher concentration in industrial properties.

### Exhibit 6: Occupancy Rates by Industry

Source: NAREIT T-tracker

## Risks

As with any investment, there are certain risks associated with GOODs operations as well as with the surrounding economic and regulatory environments common to the real estate industry.

**Competition** – GOOD operates in a highly competitive industry with low barriers to entry. The Company competes with other REITs and lenders, some of whom have greater access to financial resources. Should GOOD lose out on quality properties in potential growth markets to its competitors, its operations and ability to grow its portfolio are at risk.

**Interest Rates** – High interest rates have historically impacted the value of real estate. Considering REITs are significantly sensitive to volatile movements in interest rates as a result of their leverage, GOOD could see a reduction in the value of its assets as well as a rise in the cost of debt should rates remain volatile.

**Tenants** – Weakening economic conditions could cause GOOD's tenants to be unable to meet lease obligations. Any failure to meet these obligations would result in a significant impact on GOOD's operations.

**Geography** – The locations of GOOD's geographic markets pose environmental and economic risks. Immobile hard assets are subject to environmental disasters such as forest fires, tornadoes, and earthquakes which could damage the properties.

## VALUATION SUMMARY

We use a combination of comp analysis, reNAV per share analysis, and a Perpetual Growth Model based on the most recent FFO Payout Ratio to frame our valuation of GOOD. When we average these valuation methods it returns a valuation range of \$13.17 to \$16.25 with a midpoint of \$14.68.

(1) Previous day's closing price

(2) Estimates are from Capital IQ

(3) Forward estimates as of calendar year

We are using an EV/EBITDA and Price/AFFO framework to inform our GOOD valuation. Currently GOOD is trading at a FY24 EV/EBITDA of 12.4x compared to comps at an average of 13.2x. We are using our F24 expected EBITDA, and an EV/EBITDA range of 12.0x to 13.0x with a midpoint of 12.5x which moves GOOD closer to comp companies. This arrives at a valuation range of \$14.86 to \$17.65 with a mid-point of \$16.25. For our Price/AFFO analysis, GOOD is trading at a FY24 Price/AFFO of 10.2x compared to comps at an average of 11.1x. We are using our F24 expected AFFO, and a Price/AFFO range of 10.75x to 11.75x with a midpoint of 11.25x. This arrives at a valuation range of \$12.56 to \$13.73 with a mid-point of \$13.15.

For our NAV analysis we use a cap rate range of 7.25% to 8.25%, which we believe is reasonable given the Company's recent transactions. This returns a reNAV/Share value range of \$14.79 to \$19.97 with a midpoint of \$17.21. When we apply a discount range to these NAV values it returns a valuation range of \$12.57 to \$13.31 with a midpoint of \$13.15.

(1) Estimate based on Company Reported Cap Rates

Finally, we look at a perpetual growth model to account for the recent reduction in dividends. Even when we apply the current reduced FFO payout ratio of 74% to our forward estimated FY24 FFO we still expect a payout per share of at least \$1.03 which when used in a perpetual growth model returns a valuation range of \$12.68 to \$16.66 with a midpoint of \$14.67. This conservative valuation still results in a premium to current prices of 6.5%, 23.2%, and 39.9% at the low, middle, and high estimates respectively.

## IMPORTANT DISCLOSURES AND DISCLAIMERS

The following disclosures are related to Stonegate Capital Partners (SCP) research reports.

The information used for the creation of this report has been obtained from sources we considered to be reliable, but we can neither guarantee nor represent the completeness or accuracy of the information herewith. Such information and the opinions expressed are subject to change without notice and SCP does not undertake to advise you of any such changes. In preparing this research report, SCP analysts obtain information from a variety of sources, including to but not limited to, the issuing Company, a variety of outside sources, public filings, the principals of SCP and outside consultants. SCP and its analyst may engage outside contractors with the preparation of this report. The information contained in this report by the SCP analyst is believed to be factual, but we can neither guarantee nor represent the completeness or accuracy of the information herewith. While SCP endeavors to update the information contained herein on a reasonable basis, there may be regulatory, compliance, or other reasons that prevent us from doing so. The opinions or information expressed are believed to be accurate as of the date of this report; no subsequent publication or distribution of this report shall mean or imply that any such opinions or information remains current at any time after the date of this report. Reproduction or redistribution of this report without the expressed written consent of SCP is prohibited. Additional information on any securities mentioned is available on request. SCP does not rate the securities covered in its research. SCP does not have, nor has previously had, a rating for any securities of the Company. SCP does not have a price target for any securities of the Company.

Recipients of this report who are not market professionals or institutional investors should seek the advice of their independent financial advisor prior to making any investment decision based on this report or for any necessary explanation of its contents. Because the objectives of individual clients may vary, this report is not to be construed as an offer or the solicitation of an offer to sell or buy the securities herein mentioned. This report is the independent work of SCP and is not to be construed as having been issued by, or in any way endorsed or guaranteed by, any issuing companies of the securities mentioned herein.

SCP does not provide, nor has it received compensation for investment banking services on the securities covered in this report. SCP does not expect to receive compensation for investment banking services on the securities covered in this report. SCP has a non-exclusive Advisory Services agreement to provide research coverage, retail and institutional awareness, and overall Investor Relations support and for which it is compensated \$5,000 per month. SCP's equity affiliate, Stonegate Capital Markets (SCM) - member FINRA/SIPC - may seek to provide investment banking services on the securities covered in this report for which it could be compensated.

SCP Analysts are restricted from holding or trading securities in the issuers which they cover. Research Analyst and/or a member of the Analyst's household do not own shares of this security. Research Analyst, employees of SCP, and/or a member of the Analyst's household do not serve as an officer, director, or advisory board member of the Company. SCP and SCM do not make a market in any security, nor do they act as dealers in securities.

SCP Analysts are paid in part based on the overall profitability of SCP and SCM. Such profitability is derived from a variety of sources and includes payments received from issuers of securities covered by SCP for services described above. No part of Analyst compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in any report or article. This security is eligible for sale in one or more states. This security may be subject to the Securities and Exchange Commission's Penny Stock Rules, which may set forth sales practice requirements for certain low-priced securities.
