COMPANY DESCRIPTION

Third Coast Bancshares, Inc. is a commercially focused bank founded in 2008 with its headquarters in Humble, TX. Third Coast provides a variety of banking and lending services between the cities of Dallas, Houston, and San Antonio. The Company serves institutions, businesses, individuals, and families in 5 markets with 19 branch locations across Eastern Texas. The Company now trades on the NYSE and NYSE Texas as of September of 2025 under the ticker symbol TCBX.

THIRD COAST BANCSHARES, INC. (NYSE: TCBX)

Company Summary

Financial Results: For 3Q25, Third Coast reported net income of \$18.1M, which is up from \$16.7M in 3Q24. This was equal to a basic and diluted EPS of \$1.22 and \$1.03, respectively. The Q/Q increase was primarily attributed to stronger net interest income and higher non-margin loan fees. However, this increase was partially offset by a higher provision for credit losses. We anticipate that the Company will continue prioritizing operational efficiency by sustaining its 1% improvement initiative with our forecast that non-interest expenses will remain stable. This strategy is expected to support Third Coast in the current macroeconomic landscape.

Merger Announcement: In 3Q25, the Company announced a definitive agreement to acquire Keystone Bancshares in a stock-and-cash deal valued at ~\$123 million, with the combined franchise expected to exceed \$4.9 billion in Loans and \$5.3 billion in Deposits at close. The acquisition expands the Company's presence in greater Austin area and is supported by strong underwriting leading to a high quality credit portfolio. Management cites cost synergies and near-term EPS accretion with an estimated ~1.5-year TBV earn-back. Overall, we believe this transaction is accretive and positions the Company well for future growth.

Interest Income and Expenses: TCBX reported a net interest margin of 4.10% for the quarter, which is down from 4.22% in 2Q25. We note that this remains elevated compared to the median comps NIM of 3.57%. Year over year NIM increased significantly from 3.73%. This was primarily due to an increase in net interest income from completed securitization transactions.

Deposits and Loans: The Company's gross loan portfolio continues to show strong growth, with an increase of \$275.3M year over year. During the same period, net deposits rose by \$378.3M, representing a 9.5% increase. Non-performing assets for 3Q25 were \$21.7M, up from \$20.1M in the previous quarter. This corresponds to a nonperforming loan to total loans ratio of 0.52%, compared to 0.49% in 2Q25. Lastly, we note that the quarter end book value and tangible book value were \$32.25 and \$30.91.

Financial Ratios: Tier 1 capital ratio was 10.25%, flat from 10.20% in 2Q25. TCBX had a ROAA and ROAE of 1.41% and 15.14%, respectively. The efficiency ratio for the quarter was 53.03%, an improvement from 55.45% last quarter. The Bank currently has \$123.0M in cash and equivalents, equal to \$8.89 per share or approximately 23% of the stock value.

Growth Initiatives: Management continues to execute on balance-sheet optimization and organic growth while advancing M&A. As previously mentioned, in 3Q25, TCBX announced a definitive agreement to acquire Keystone Bancshares valued at approximately \$123M. This transaction is expected to close in 1Q26. In addition, TCBX transferred its listing to the NYSE and NYSE Texas to enhance visibility and liquidity for shareholders.

Valuation: We use a comp analysis on P/E and P/TBV to frame our valuation of TCBX. Using a forward P/E range of 9.0x to 10.0x with a mid-point of 9.5x on FY26 estimates results in a valuation range of \$40.80 to \$45.33 with a mid-point of \$43.06. Using a P/TBV range of 1.4x to 1.5x with a mid-point of 1.4x results in a valuation range of \$41.73 to \$44.82 with a mid-point of \$43.27.

Business Overview

Third Coast Bancshares, Inc. (“the Company”, “the Bank”, “TCBX”, or “Third Coast”) is a commercially focused bank founded in 2008 with its headquarters in Humble, TX. Third Coast provides a variety of banking and lending services between the cities of Dallas, Houston, and San Antonio. The Company serves institutions, businesses, individuals, and families with 19 branch locations (pro forma 22 locations) across Eastern Texas. The Bank began trading on the Nasdaq exchange in November of 2021 under the ticker symbol TCBX.

Exhibit 1: Pro Forma Company Locations

Source: Company Reports

The Bank is primarily involved in the business of attracting deposits in the Bank’s market areas. The Bank grows by investing these deposits, as well as other sources of funds, in loans that are secured by commercial and residential real estate, business assets, and personal guarantees. Third Coast has kept itself competitive by offering competitively low rates, maintaining a strong team-oriented culture, and organic growth stemming from customer attentiveness.

Third Coast further diversifies its revenue base through several specialty lending verticals such as SBA loans and working capital solutions loans. These revenue streams fall under the Noninterest Income category along with service charges and fees on deposit gains, earnings from bank owned life insurance, and derivative fees. While these lines make up a proportionally small amount of the income when compared to interest income, we are encouraged by the Bank’s ability

to further serve customers, which we believe strengthens customer relations.

The Bank’s performance is tied to its three markets. These markets are broken out further below, with one additional branch in Detroit, TX which is approximately 120 miles northeast of Dallas, TX:

Dallas-Fort Worth Market – The Company has three branches in the Dallas-Fort Worth market, with one location in the North Dallas area, one in Plano, and one in Fort Worth. The DFW Market is the largest in Texas and the fourth largest in the U.S. and boasts the sixth largest GDP in the nation. This area hosts approximately 3.6m working professionals and is among the top ranked areas for job growth in the nation.

Greater Houston Market – The Company has ten branches in the Greater Houston market, including eight branches located in the Houston MSA and two branches in the neighboring Beaumont MSA. The Houston MSA is projected to grow by 7.6% over the next 5 years, which is more than double the nationwide projected growth. The Beaumont MSA is highlighted by an influx of industrial, infrastructure, and commercial projects as well as its strategic location along the gulf coast.

Austin-San Antonio Market – The Company has five branches in the Austin-San Antonio market, with one location in Georgetown, one in La Vernia, one in Nixon, one in De Novo, and one in San Antonio. The Austin MSA is projected to grow 8.5% through 2026 and was recently designated a top 10 global Technology Innovation Hub city by KPMG. San Antonio is projected for a population growth of 7.6% over the next 5 years.

Loan Portfolio

Third Coast's primary source of revenue is generated by providing loans to commercial and retail customers in the above-mentioned regions of Texas. TCBX primary lending activities originate from commercial and residential real estate lending. At 2Q25 end, Third Coast's gross loan portfolio was ~\$4.2B at a yield of 7.73%. The Bank's loan portfolio primarily consists of Commercial and Industrial loans.

Third Coast has a robust commitment to sound underwriting and comprehensive monitoring across its lending portfolio. At the community banking level this takes the form of reviewing and verifying compliance with loan covenants. At the corporate banking level, trend cards are kept on every borrower with over \$10.0M, which includes quarterly reviews on income statements and balance sheet metrics as well as applicable ratios. The team also holds quarterly meetings to review all borrowers.

Exhibit 2: Loan Portfolio

Source: Company Reports as of 09/30/2025

Deposits

Deposits are the primary source of funds for the Bank to use in its lending and investment activities. Third Coast's deposits come from individuals and businesses who reside in the Texas MSA's highlighted above. The Bank offers various deposits including:

- Checking
- Savings
- Money Market
- Individual Retirement Accounts
- CDs

Total deposits in 3Q25 were \$4.38B versus \$3.99B in 3Q24, increasing by approximately 9.5%.

Exhibit 3: Balance Sheet Growth

Source: Company Reports as of 09/30/2025

Profitability

Net interest margin (NIM) is a good indicator of how profitable banks are through their investments. Exhibit 4 provides TCBX's net interest margin trends relative to its peers since 1Q20.

We note that TCBX has maintained NIM outperformance compared to peers since COVID, and we expect this trend to continue. NIM has remained above 3.6% since 2Q22 despite the elevated rate environment. As of 2Q25 TCBX NIM was 4.10%, which continues to outpace its peers. We expect this strong NIM performance to be maintained, with the potential to increase in the event of a falling rate environment.

Exhibit 4: NIM Trends vs Peers

Source: CapIQ, Stonegate Models

We note that in 3Q23, TCBX experienced a spike in its efficiency ratio, which was impacted by a decision to reduce operating expenses and overhead costs leading to a significant one-time severance expense. This was a strategic decision by Third Coast to set the Bank up for future growth. Since this blip in 3Q23 we have seen both efficiency ratio and ROAA return to normal levels.

Exhibit 5: Profitability Trends

Source: Company Reports as of 09/30/2025

Growth Initiatives

While the Company has a focus on organic growth, the Bank has also shown a willingness and ability to grow externally. This was first displayed in 2020 when TCBX merged with Heritage Bancorp, Inc and has again been proven with the recent announcement of the Keystone Merger. Organic growth will be driven by strategic hires and the opening of new branches. We also expect TCBX to continue expanding products and services with further investment in technology to deliver quality customer experiences. This, in combination with the Bank's broad-based community values, is expected to grow core deposits.

Risks

Geographic concentration – Third Coast is concentrated in the state of Texas, which exposes it to risks associated with lack of geographic diversification. A local or regional economic downturn could adversely affect the Company's profitability.

Changes in interest rates – Third Coast's results depend on its net interest income; should the rates it earns on loans, securities and other interest-bearing assets fluctuate faster than the rates it is required to pay on deposits and borrowed funds, results would suffer.

Security of systems – Any material breaches in the security of Third Coast's banking systems could cause material losses for the Bank. Protecting sensitive consumer data is essential as is maintenance and backup of key financial and customer information.

Access to future capital – Should the Company incur significant loan losses, desire to execute acquisitions, or require additional funds for other operational purposes, the timing and terms of the capital may not be favorable given certain economic and/or market conditions.

External shocks – War, terrorism, other acts of violence or natural or manmade disasters such as a global pandemic may affect the markets in which the Company operates, the Company's customers, the Company's delivery of products and customer service, and could have a material adverse impact on our business, results of operations, or financial condition.

VALUATION SUMMARY

Third Coast's experienced management and service teams bring not only valuable industry knowledge, but also a unique grasp of the local economy and target demographics. This experience, coupled with the Company's operating ability, should allow it to take advantage of any opportunities that may present themselves.

Price / Earnings

Comparable companies are trading at an average of 9.4x FY26 P/E. We believe TCBX should trade in a forward P/E range of 9.0x to 10.0x with a mid-point of 9.5x. Using this range on our FY26 EPS estimate results in a valuation range of \$40.80 to \$45.33 with a mid-point of \$43.06.

	P/E		
2026 E	9.00x	9.50x	10.00x
EPS	\$ 4.53	\$ 4.53	\$ 4.53
Valuation	\$ 40.80	\$ 43.06	\$ 45.33

Price / Book Value

Third Coast is trading at 1.2x P/TBV vs. comps at 1.3x. We believe TCBX should trade in a price to tangible book value range of 1.4x to 1.5x with a mid-point of 1.4x. This maintains TCBX's earned premium to comps. Using this range on current book value per share results in a valuation range of \$41.73 to \$44.82 with a mid-point of \$43.27.

IMPORTANT DISCLOSURES AND DISCLAIMER

- (a) The research analyst and/or a member of the analyst's household do not have a financial interest in the debt or equity securities of the subject company.
- (b) The research analyst responsible for the preparation of this report has not received compensation that is based upon Stonegate's investment banking revenues.
- (c) Stonegate or any affiliate have not managed or co-managed a public offering of securities for the subject company in the last twelve months, received investment banking compensation from the subject company in the last 12 months, nor expects or receive or intends or seek compensation for investment banking services from the subject company in the next three months.
- (d) Stonegate's equity affiliate, Stonegate Capital Partners, "SCP" has a contractual agreement with the subject company to provide research services, investor relations support, and investor outreach. SCP receives a monthly retainer for these non-investment banking services.
- (e) Stonegate or its affiliates do not beneficially own 1% or more of any class of common equity securities of the subject company.
- (f) Stonegate does not make a market in the subject company.
- (g) The research analyst has not received any compensation from the subject company in the previous 12 months.
- (h) Stonegate, the research analyst, or associated person of Stonegate with the ability to influence the content of the research report knows or has reason to know of any material conflicts of interest at the time of publication or distribution of the research report.
- (i) No employee of Stonegate has a position as an officer or director of the subject company.

Ratings - Stonegate does not provide ratings for the covered companies.

Distribution of Ratings - Stonegate does not provide ratings for covered companies.

Price Chart - Stonegate does not have, nor has previously had, a rating for its covered companies.

Price Targets - Stonegate does not provide price targets for its covered companies. However, Stonegate does provide valuation analysis.

Regulation Analyst Certification:

I, Dave Storms, CFA, hereby certify that all views expressed in this report accurately reflect my personal views about the subject company or companies and its or their securities. I also certify that no part of my compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed in this report.
